

Make your tax payments at a convenience store!

It's more convenient than ever!

Make payments at any major convenience store nationwide, whenever it's convenient for you.

This service is limited to payment slips that include a barcode, up to ¥300,000 per payment.

Payments for amounts exceeding ¥300,000 must be made at a banking facility.

Payment Slip

Starting Now

Payment Notice

Payment Slip

The payment notice (payment details) and payment slip (separated by the banking facility when you made your payment) was bound together. When you made your payment, the date was stamped on the receipt part of the notice.

The payment notice and payment slip will be separate (individual forms).

Make sure the payment item and payment term is correct. After you make your payment, only the receipt stub (**blue section**) will be given back to you along with the receipt from the store.

There is a column in the notice where you can stick your receipt. To avoid any disputes, keep your receipts for at least 5 years.

※**Make sure the payment item and payment term is correct.**
