

# The Service of Automatic Certificate Issuing Machine Will be Terminated as of November 30th, 2021

The service of issuing certificates using automatic certificate issuing machines located in two locations in Okinawa City (in the main office of the City Hall and in the Water and Sewerage Bureau) will be discontinued as of **November 30th, 2021**.

If you wish to get various certificates issued on holidays or after hours, please use the convenience store issuance service.

To use the service, you will need a "My Number Card (with electronic certificate for user verification)".

- ※It takes about a month to create a my number card.
- ※Your current "Hibiscus Card" will be used as a "seal (*Inkan*) registration card" even after the service of the automatic certificate issuing machine ends.

Please do not dispose of your Hibiscus card as you will still need it to issue a seal registration certificate or change your registered seal (*Inkan*) at the counter.
