

# Temporary School Closing and Safety Policy for Children During Typhoon

We would like to have parents' understanding regarding our policy on the school schedule and children's safety management when a **Windstorm Warning (暴風警報 Bofu Keiho)**, Windstorm Special Warning (暴風特別警報 *Bofu Tokubetsu Keiho*), or Rainfall Special Warning (大雨特別警報 *Oame Tokubetsu Keiho*) is issued.

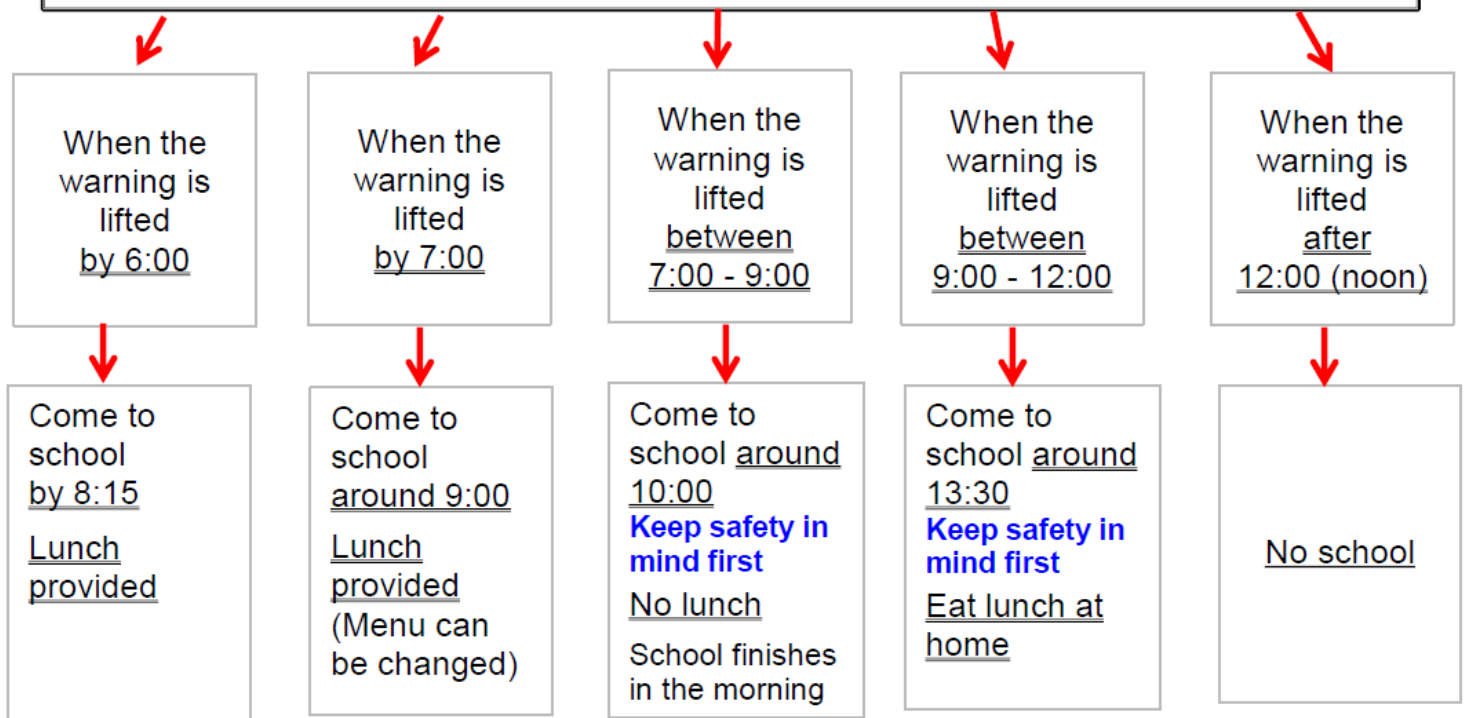

## 1. When any of those warnings are issued

When a storm warning is issued for the south & central part of the island, schools will be temporarily closed. (Regardless of whether or not there is a notice on TV or other media saying "Public elementary and junior high schools are closed", the schools will be closed.)

## 2. When the warning has been lifted:

(There will be no direction announced by the media to "please go back to school".)

# When the Warning is Lifted

※The school hours may be changed or cancelled in the event of weather, geographic, and school route conditions (when there is a risk of river flooding, road collapse, landslide, or flooding). Please contact your school (kindergarten) for more information.
