

The way to trash separate household had changed since April 1st 2019

1. Yard waste has been picking up regularly.

You can trash yard waste in bag or tie up its maximum 6 bags/tie ups.

2. The way to trash harmful waste has been changed.

Alkaline and manganese batteries are adding as harmful waste like fluorescent tubes, mercury thermometers and lighters. Place the fluorescent tube in original package box and others in the clear bag.

Please consult with the shop which sold you the goods to collect the used one for button batteries and rechargeable batteries.

Fluorescent tube

Mercury thermometer

Lighter

Battery
(only Alkaline and manganese)

3. Futons and some others are bulky trash now.

Futons and sheets, rugs are collected as bulky trash.

※Or we will collect them as combustible trash when cut them into smaller than 50cm × 50cm and place them in Okinawa city combustible trash bag

4. About old designed Okinawa city bags.

The extra large size of trash bag and the large and medium of old designed Okinawa city trash bag which doesn't have handles can not be used. Please use them for yard waste or recyclable trash.

※The small size of old designed trash bag can be used as before.

Trash collection schedule for each area

※Take the trash out by 8:00 a.m.

Areas	Combustible trash (designated trash bag)	Non combustible trash (designated trash bag)	Yard waste (clear bag)	Can (clear bag)	Bin (clear bag)	Papers (Tie)	PET bottle (clear bag)
